

Linxon – Middle East and Africa

We are building
the infrastructure

To power the world
with carbon free energy

We combine AtkinsRéalis' project
management expertise and Hitachi
Energy's industry leading technological
knowledge into a company dedicated
to turnkey electrical AC Substations
... we are Linxon.

linxon

How we create value

Our Heritage

We bring together AtkinsRéalis and Hitachi Energy strengths.

Our Purpose

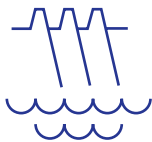

We are building the infrastructure to power the world with carbon free energy.

Our Vision

Linxon is the partner of choice for turnkey HV substations.

Where we play

Substations transform voltage between the generating station and the consumer, distributing power to people and industry.

Renewable Generation

Substations that meet the demands of tomorrow

Transportation

For all rail applications and mass transit solutions

Utilities

Serving utilities with engineering and program efficiency

Conventional Generation

Substation innovations connecting conventional generation

Data Centers

Serving data center operators with specialized designs for reliable power

Battery Energy Storage

Advanced battery storage solutions for diverse applications

HUB-MEA Presence

Linxon Regional Headquarters:
Al Riyadh, KSA

Carrying the legacy of ABB, Linxon has established its Regional Head Quarters in the heart of Riyadh to serve the MEA region. Linxon offices are spread across the region in Saudi, UAE, Bahrain, Egypt, Jordan, and Iraq.

Our expertise, deep technological knowledge, digital know-how and project management expertise make Linxon a true partner for reliable, sustainable substation solutions. Linxon recently introduced a specialized service unit for substations with own equipment and certified supervisors.

KSA Portfolio

KSA – Conventional Generation & Utilities

السعودية

- 380 kV Tanajib Substation
- Fadhili 380 kV BSP
- Rabigh IPP 380 kV GIS Substation
- Expansion of Existing Badar (9013) & Installation of Reactors @ Nafal (9008) & PP-7 (9007)
- Expansion of Layla
- Expansion of the Existing (RBG-2 BSP) and Installation of Bus Reactors at Makkah Housing (MKH) 380 kV BSP & Jeddah Northeast (JNE) 380 kV BSP
- Expansion of Existing Ghazal 230 kV GIS Substation and Associated Remote end Modification
- Expansion of Qatif
- Expansion of TEG
- Expansion of TWL & KLS
- Black Zone
- Expansion of Rabigh 2 BSP
- Expansion of Safaniya BSP 380-230 kV
- Expansion of Al Mashar & South Azizia 380 kV

UAE Portfolio

UAE – Conventional Generation & Utilities

- MBR Solar Main and Mod. 2 Sheikh Mohammad Bin Rashid Solar Park 400/132 kV SS & Associated OHL Works
- SHAMS 400/132 kV Substation and Associated Modification Works
- Rabawah 132/11 kV GIS SS (EMAAR MBR Dubai Hills (14-15))
- GreenHills 132/11 kV GIS SS (EMAAR MBR Dubai Hills (14-15))
- Abrajst 132/11 kV Substation and Associated Works
- Sanad Project MH-0021 132/11 kV Substation and Associated Works

Bahrain Portfolio

BAHRAIN – Utilities

- 4662/2016/3100: 220 kV & 66 kV Transmission Development (2012-2016) - Phase 1 (4_220/66 kV GIS SS)
- Janoob Madinat Hamad 220 kV SS BSP
- Durrat Al Bahrain 220 kV SS BSP
- Addari 220 kV SS BSP
- Addur IPWP 220 kV SS BSP
- BMP 220/33 kV SS & East Sitra 220/66 kV SS
- Amazon Askar 220 kV Substation

Iraq Portfolio

IRAQ – Utilities

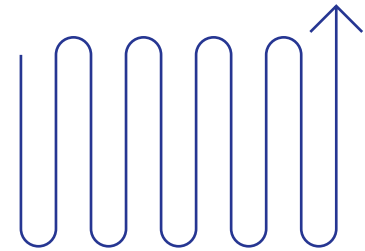

- JICA-Lot 2-Boob Al Sham 132/33 kV GIS SS
- JICA-Lot 2-Kut Center 132/33 kV GIS SS
- JICA-Lot 2-Al Dewaniay West 132/33 kV GIS SS
- JICA-Lot 2-Al Hussainiya 132/33 kV GIS SS
- 12NT-AL Hay SS 132/33 kV AIS SS
- 12NT-New Karbala SS 132/33 kV AIS SS
- 14NT-AL ADALA SS 132/33 kV GIS SS
- 14NT-AL TURATH SS 132/33 kV GIS SS
- 14NT-AL RABEA SS 132/33 kV GIS SS
- Baghdad North 400 kV GIS SS
- Rumaila
- Babil

Hub Middle East and Africa Country Managers

We deliver future-ready and sustainable energy solutions and act as a true partner to facilitate the digital transformation for those who depend on consistent reliability...
